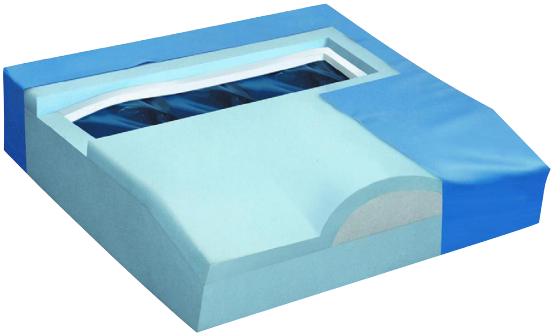
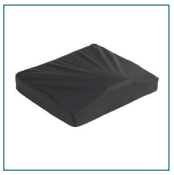
Titanium Skin Protection and Positioning Gel/Foam Wheelchair Cushion



FPT-1



FPT-1

- The Titanium cushion is specifically designed to offer superior pressure redistribution and positioning
- High-resilient, high-density foam combined with a dual chamber gel bladder encourages proper patient posture through immersion
- Middle contour acts as a built-in leg abductor
- Low-shear, fluid-resistant stretch cover helps to maintain sensitive skin tissue
- Non-skid bottom offers additional stability
- Meets flammability standard TB117
